DEEPAK BAKHTIANI

INFORMATION SECURITY | TECHNOLOGY RISK | SECURITY ASSESSMENT & GOVERNANCE

Boston, MA | (732) 688-9449 | bakhtianideepak@gmail.com | linkedin.com/in/deepakbakhtiani

EDUCATION

Northeastern University, Khoury College of Computer Sciences | Boston, MA **Jan 2026 - Dec 2027**
Master of Science in Cybersecurity | GPA: 3.9 / 4.00 | Expected Dec 2027

Indian School of Business | Hyderabad, India **2018 - 2019**
Executive MBA, General Management

University of Mumbai | India **2012 - 2016**
Bachelor of Engineering, Computer Engineering | First Class

KEY QUALIFICATIONS

- **Security Assessment:** EY and Deloitte experience assessing cybersecurity and technology controls against ISO 27001, NIST, SOC 1/2, and SOX 404 for banking, insurance, aviation, and public sector clients across four regions; presented findings to C-suite executives and audit committees in non-technical terms.
- **Infrastructure & Vulnerability:** Vulnerability management and remediation tracking, configuration baselines and hardening, firewall and network segmentation, IAM and Active Directory, privileged access, logging, cloud and container environments.
- **Threat & Incident Response:** Built incident response playbooks defining response procedures and escalation paths; ran simulations and tabletop exercises with senior leadership; graduate lab work in exploitation, reverse engineering, and threat modeling.
- **Risk, Privacy & AI Governance:** Designed third party risk and governance frameworks with vendor tiering and monitoring; CIPP/E certified in EU data privacy; ISO 42001 lead auditor delivering AI risk assessments for enterprise AI adoption.
- **Credentials:** CISA | CIPP/E | ISO/IEC 27001 Lead Auditor | SO/IEC 42001 AI Management Systems Lead Auditor

PROFESSIONAL EXPERIENCE

Northeastern University | Boston, MA **Sep 2026 - Present**
Teaching Assistant, CY5200 Security Risk Management & Assessment

- Deliver faculty assigned modules on risk assessment methodology and control design to a graduate cohort of 57; lead weekly sessions and assess coursework against NIST and ISO frameworks.

Deloitte & Touche Middle East | Riyadh, Saudi Arabia **Aug 2025 - Jan 2026**
Assistant Manager | Cybersecurity & Technology Risk

- Led security control assessment and SOC 2 Type II readiness for a government entity: control gap analysis across access, network, and operations domains, with issue tracking and remediation through verified closure.
- Reviewed network and infrastructure security covering firewall rule changes and rule base hygiene, privileged administrative access, logging, and vulnerability management, reporting prioritized findings to senior stakeholders.

EY (Ernst & Young) | Boston & Toronto, North America **Mar 2022 - Jan 2025**
Senior Consultant | Cybersecurity & Technology Risk

- Led cybersecurity and technology risk engagements for US and Canadian clients, managing teams of up to 12 as day-to-day lead with security, technology, and business stakeholders.
- Assessed vulnerability management, configuration baselines and hardening, IAM and Active Directory, network segmentation, SDLC, and cloud/SaaS security controls across enterprise environments.
- Led an ISO 27001 security maturity assessment for a major Canadian airport including onsite operational technology (OT) reviews; identified security gaps and supported remediation contributing to successful certification.
- Delivered AI risk assessments and governance approaches for client adoption of AI and emerging technologies; drove 25% engagement efficiency gains through risk-based scoping.

EY (Ernst & Young) | Mumbai, India **Jun 2016 - Mar 2022**
Analyst → Consultant → Senior Consultant | Cybersecurity & IT Risk

- Delivered security and technology control reviews for banking and insurance clients across IAM, change management, SDLC, network infrastructure, and databases.
- Designed and implemented a third-party risk management framework for a US insurance client covering vendor assessment criteria, risk tiering, monitoring, and workflow design.
- Built incident management playbooks and facilitated cybersecurity simulations and tabletop exercises with senior leadership; deployed onsite to Bangladesh for an international banking security engagement.

TECHNICAL SKILLS

Security: Vulnerability scanning (Nessus), log analysis (Splunk), web app testing (Burp Suite), baselines and hardening, exploitation, reverse engineering, threat modeling
Systems & Cloud: Linux/Unix, Windows and Active Directory, Azure, virtualization and containerization, network services
Tools & Analysis: Advanced Excel, Word, PowerPoint, Visio; ServiceNow, Jira; SQL, Python, C
Frameworks: NIST CSF/RMF, ISO 27001 / 42001, COBIT, SOC 1/2, SOX 404, GDPR, AI Governance
